#### Warning! If Money Triggers You...

This is a book about money, abundance, permission to receive, and stepping into your truth.

This is Amanda's truth and she shares her voyage from no money to lots of money with love and transparency.

If money feels uncomfortable to you - this might be just the book you need. It'll trigger you! So be aware! You might get mad, get judge-y, think ugly thoughts, because most of us weren't taught that MONEY IS JUST A TOOL. It's just another form of energy. It

We humans give it meaning.

So what's the meaning and feeling you have around money???

Enjoy the book! Love and cheer. Vanessa Redford

#### Changed My Financial Life

This book was my intro to Amanda Frances. I stumbled across it not knowing who she was, and have since read it multiple times. The reality is that she is an absolute expert in the mindset and energy behind money. I grew up in the world of budgets and saving (aka never spending). She showed me a whole other side to money- how to create a better relationship with it- and my income is now 4x higher than it was on my first reading. And that's not the only way my life is hugely transformed.

If money has felt like a struggle, if you've felt triggered or unsafe around money, if it feels like money always comes and goes... then you need to read this.

And the audiobook is amazing.

#### Killer Read On The MAGIC Of \$\$

I bought this book & have reread it more times than I can count. The info is deep - but if you're looking for a traditional \$\$ book, this isn't it. This book is expansive. It speaks to the principals & inner work of \$\$. It's about adjusting YOU to make \$\$ work in your life, It's not a dang Dave Ramsey book people- it's not about mathematics. This is for REAL INNER transformation...it covers the energy & Mindset around \$\$. My book is full of highlights, markings & is well loved. I highly recommend this book if you're ready to shift the way YOU interact, feel about & love \$\$.
